TRIAL OF COUNTERFEITERS—A YOUNG WOMAN TURNED STATE'S EVIDENCE.

From The Rochester Democrat.  
U. S. COURT, ROCHESTER, CANADA—This Court, which has been in session since Tuesday last, has been engaged in the trial of persons charged with making and selling counterfeit money. The first person tried, was George Clark, who was convicted of counterfeiting, and whose place of operation was at Utica. The District Attorney took up the trials of several persons, who were charged with having been selected by Dr. Clark, the making of bank coin at Knoxville, near Corning. The circumstances of Dr. Clark's arrest last December were mentioned by the press at the time, and attracted more than ordinary attention, by reason of the extensive operations conducted by him, and also of the fact that the arrest of his daughter, Susan, as accomplice, of the doctor himself was tried, his case being sworn of on the ground of sickness, but some four of the confederates were disposed of.

The first one tried, and who seems to have been the leading spirit of the gang, was one Titus Lowe. Miss Susan was called by the Government as a witness, and gave a detailed account of the modes of operation, and particularly of the process of making the coin. It seems that her father's mother and her sister, one Grace, (now in State Prison), Palmer and others did the smelting and running of the coin, while the more delicate manipulations of galvanizing and polishing were entrusted to George's wife and daughter. The latter, in lending a helping hand, Lowe's chief occupation, however, seems to have been to vend the coin in considerable quantities about the country, the current price of which was about \$100, cash in hand, and which was sold at a profit of \$100, cash in hand, and which was sold at a profit of \$100, cash in hand.

Susan, who is of a very intelligent and prepossessing appearance, is about nineteen years of age. She told her story in a straightforward manner, and with such an air of truth as to carry conviction to the minds of all that it was entirely truthful. She seems to have been led or forced into this course of crime by her father and the others, and all seemed well pleased that she should be allowed to turn State's evidence, and thus be saved from prison. Released from the bad influences which have surrounded her, she may be expected to lead a reformed life. After Lowe's conviction, two or three others of the same gang were tried, and convicted, and the trial of the others was deferred to a later date.

EXPLOSION IN WISCONSIN—NINE LIVES LOST.  
Correspondence of The Philadelphia Ledger.  
An accident occurred near this village on Sunday, the 11th inst. A number of years ago, when this part of the country was a howling wilderness, a very rich gentleman had wandered here for the purpose of hunting. He was a high, portly, middle-aged man, and he came to the foot of a high, precipitous rock, about 80 rods from where now stands the village of Mount Vernon; while he was exploring the crevices, &c., in search of fox holes, he found a large cavern, which he did not think it worth the trouble to enter, but he proceeded to explore it; he had not proceeded far before an explosion of the gases took place, which ended his life.

It has been stated since that time, but with no fatal consequences, being believed to carry no peril, except in a glass lantern, till last Sunday, when a number of persons being assembled at the house of Joel Britts, on a visit, they concluded to take a ride to the village, and to visit the cavern, which was the cause of the explosion. The cavern was reached, and the explosion of the gases took place, which ended his life.

THE FINE ARTS.  
The Boston Courier says that Mr. Joseph Ames is now engaged upon a historical painting, to represent Mr. Webster in that most impressive scene, a few hours before his death, where he summoned his family and friends to his bedside and signified to them that he was about to die. The painting is to be executed in oil, and is to be placed in the gallery of the Boston Museum of Fine Arts. The painting is to be executed in oil, and is to be placed in the gallery of the Boston Museum of Fine Arts.

MORE DESTRUCTION OF LIQUOR BY WOMEN.

The Niles (Mich.) Republican furnishes the particulars of the destruction of a whisky establishment at Berrien, in that State. It seems that James Green recently opened a grocery store in that village, and to complete his stock in trade, rolled in a barrel of whisky and a quantity of bad brandy. The women of the place held a meeting privately, organized and planned to destroy the establishment. They got into the store, and, armed with axes and hammers, to the grocery, which they entered. Miss Peck read the resolutions to Mr. Green, and then asked him what he would take for his barrel of whisky. His reply was \$100. This they refused to give him, and they proceeded to destroy the establishment. They got into the store, and, armed with axes and hammers, to the grocery, which they entered. Miss Peck read the resolutions to Mr. Green, and then asked him what he would take for his barrel of whisky. His reply was \$100. This they refused to give him, and they proceeded to destroy the establishment.

THE PHRENOLOGICAL CABINET OF MUSEUM, which Open and Free to Visitors daily, and on the Fourth, the BROTHERS FOWLER will be in attendance to wait upon those who may wish their services. Citizens and Strangers will find this an agreeable place to visit. Examinations with charts and fluted descriptions of the brain, when desired. No. 303 Broadway, two blocks above the Water.

THE CRISTAL PALACE.—The attendance yesterday was very large. The Crystal Palace is in the current of the Crystal Palace. The attendance yesterday was very large.
